FEEDING GUIDE

WEIGHT OF CAT (Kgs)	INTAKE (gms/day)
1	30
3	65
5	100
7	130
10	170

NOTE: 1 Cup is approximately 130 grams

Our recommendation is that cats should have their meals spread out across two feeds each day, as this helps to keep their metabolism stable, energy levels more consistent and aid with better digestion.

A sample of schedule feeding:

- 7am: Breakfast
- 6pm: Dinner
